June 18, 2020 June 18, 2020 9 11 1 1 So let's move to the vice chair. Do we have any report for you, I'll submit that in the next couple of days, 2 2 nominations for vice chair by show of hands? Travis. but I can give a -- a very quick verbal report. As you know, 3 COMMISSIONER TANCAYO: Nominate Lisa Vares. 3 we've been dealing with the COVID-19 event. We've been in 4 VICE CHAIR GINOZA: Excellent. Is there anyone else 4 partial activation since March and the EOC has been 5 that would like to nominate someone else? operational at one point for 75 days straight. Or 80 days, 6 (No response.) 6 I'm sorry, 80 days straight. And so -- and we're still --7 7 VICE CHAIR GINOZA: Okay. I'll close the we're still dealing with -- with this. In fact, today, I just 8 nominations. Is there any discussion that anybody wants? R learned that there were 18 new cases on Oahu and so --9 9 (No response.) although there are no new cases on Maui and we haven't had a 10 VICE CHAIR GINOZA: No discussion. Let's vote. 10 new case now in almost two weeks. So we're doing pretty good 11 11 Please raise your hand if you vote for Lisa Vares. here on Maui, but our concern is, of course, the possibility 12 12 (Response.) of cases coming in from -- from Honolulu. 13 13 VICE CHAIR GINOZA: It looks like it's unanimous as For this budget session, the council did approve two 14 14 well. Congratulations, Lisa. more positions, so -- for a training and public affairs 15 15 COMMISSIONER: Congratulations. officer, we'll be recruiting for those two positions. Also, 16 VICE CHAIR GINOZA: Okay. I'd like to move on to 16 our plans and operations officer, Andrea Finkelstein, did --17 the next agenda item, Attendance Policy, and I believe Gary 17 she will be leaving our agency and will be working for a 18 18 will explain that. consultant. And so our preparedness specialist, Shernan 19 19 MR. MURAI: Thank you, Chair. So, Members, this is Carroll, will be moving into that position, but, also, she is 20 20 just for your information. What the council has done is slated to retire at the end of the year, too, so there will be 21 21 they've created an attendance policy for board and commission a lot of new faces in our agency in the next few months. 22 22 members. Basically, it just wants -- basically, what they With respect to hurricane, the National Weather 23 23 want is just more -- well, I just want to say this: In my Service predicted that this hurricane season, that there is a 24 24 experience with the fire and public safety commission, certain percent chance of a lower normal hurricane season and 25 attendance has not been a problem. This is really meant for 25 so it is expected about two to six cyclones. So as I $\mbox{'ve}$ June 18, 2020 June 18, 2020 12 1 some boards and commissions that have had attendance problems 1 mentioned before to the -- to the commission, we're hoping 2 2 and, you know, if you don't have a quorum, you can't have a that we'll move into a La Nina phase. Right now we're kind of 3 3 still in the El Nino phase, so it looks like by August or so meeting, your board or commission cannot do business. This 4 does impose some burdens upon members; in other words, if 4 we should be moving into what's called the La Nina phase. 5 5 you're not going able to make it, they want you to notify the We'll continue to do hurricane preparations for --6 commission secretary so that, you know, we know whether -- we 6 Excuse me. I'm sorry. (Pause.) I'm sorry. 7 7 have a quorum or not. And it does place some additional There's some activity going on. 8 8 burdens on support staff in that we have to, you know, do a So we're still going through preparations for 9 9 hurricane now, now including COVID and all this, and so we're better job of keeping track of attendance and -- and also, you 10 10 know, reporting when -- when we have a -- a member who's just looking at getting more supplies and everything. Shelter is 11 11 not showing up and not communicating. But like I said, this going to be an issue for us because now, you know, we have to 12 12 is just for your information. If you have any questions, I'll practice social distancing in our shelters and so that's gonna 13 13 be glad to answer them. Again, it's really not directed at limit the number of shelters that we can get as well as even 14 14 you guys. In my experience, the fire and public safety our EOC is going to be an issue. I think I've mentioned to 15 15 commission has always been able to, you know, to pull its you guys in the past we have, during an activation, about 60 16 16 members together. Thank you. to 80 people in this -- in this room. If we were to use 17 17 VICE CHAIR GINOZA: Great. Does anybody have any American Red Cross guidelines, we can only put six people in 18 18 questions? this room, so that is gonna be an issue for us. And, of 19 19 (No response.) course, we're preparing for a second wave and possible surge. 20 20 VICE CHAIR GINOZA: Thank you, Gary. So that's -- that's all I have, Mr. Chair. I'm open 21 21

22

23

24

25

to any questions, if there are any.

VICE CHAIR GINOZA: This is Kyle. I have a

question. So what -- what is the alternative if there is an

activation on the EOC? What is the alternative plan if only

six would be able to be in that room? Just Blue Jeans?

MR. MURAI: You're welcome.

report. Herman, are you there?

VICE CHAIR GINOZA: Okay. Let's move on to the MEMA

MEMA OFFICER ANDAYA: Yes, I'm here. Mr. Chair,

Members of the Commission, I apologize, I don't have a written

22

23

24

June 18, 2020 June 18, 2020 13 1 1 MEMA OFFICER ANDAYA: So we tried to -- we tried former fallow fields, HC&S fallow fields, so we've been having 2 2 looking for another -- another site, another location, but some wildland training. As most of you know, last year was a 3 3 pretty robust year for wildland fires, so typically annually part of the problem is, you know, we have a lot of -- like, 4 for instance, we have backup generators here, our sat phones, 4 that we do this refresher training anyway, but, obviously, 5 our communications, our VTCs are all here in this room, so it it's even more important now with the conditions being the way 6 would be difficult to just pick up and go to another --6 they are and the way they were, of course, last year. So 7 7 another location. And, Kyle, Mr. Chair, I know that you've you'll also see on there EMR refreshers, which is our standard 8 been in this -- in this EOC many times when you were director R first aid training. As you know, 60 percent of our alarms are 9 9 and you know how full this room gets, yeah. medical-related alarms, so we do a lot of those refresher 10 10 VICE CHAIR GINOZA: Sure. trainings periodically and at the very least annually for 11 11 MEMA OFFICER ANDAYA: And so I think what we may end these particular certifications. 12 12 up having to do is just I think we're going to be forced to The other one listed there, the other bullet is 13 13 work in this room, we're just going to be very strict about rapid intervention team training and that's really related to 14 14 usage of masks and gloves -- or, I mean, washing our hands, rescuing our firefighters. There is an OSHA standard that 15 15 you know, things like that. So I don't think we're going to states that we have two people in a structure, we have to have 16 16 have an option. We're trying to find a new option, but -two people -- a minimum of two people out ready to go in and 17 VICE CHAIR GINOZA: Okay. 17 rescue them if they need to be rescued, that's a standard that 18 18 MEMA OFFICER ANDAYA: If worse comes to worse, I we have to adhere to. So if there's -- therefore, if there's 19 19 think we're just going to have to all report in here. four people in there, then there has to be four people out. 20 20 VICE CHAIR GINOZA: Okay. Thank you. So that's what we call rapid -- or RIT training and so we take 21 21 Does any commissioner have a -- any questions? that very seriously because it's firefighters rescuing 22 22 (No response.) firefighters. So that's an annual refresher we do as well, we 23 23 VICE CHAIR GINOZA: Okay. Thank you very much, have a great program. 24 24 Herman. Eventually, as we get through our -- we have a guest 25 MEMA OFFICER ANDAYA: Mr. Chair, if I -- if I could 25 presenter every meeting that we have with you folks and today June 18, 2020 June 18, 2020 14 1 be excused, I have some other matters I have to take care of, 1 it's Chief Lindo, but we'll be getting to our different 2 2 so --3 3

VICE CHAIR GINOZA: Certainly. Thank you, Herman.

VICE CHAIR GINOZA: I'd like to next go to Chief

MEMA OFFICER ANDAYA: Thank you very much.

6 Thyne. You have the floor.

CHIEF THYNE: Okay. Good morning. And I was raised not to be a butt kisser, but to acknowledge those that were elected or appointed to higher authority, so congratulations, Chair Ginoza and Vice Chair Vares. So, again, not to be a butt kisser, just acknowledging you and congratulate you for being elected.

So moving forward. So I believe we all have a report or update in front of you or have it in your packet, so I won't be too -- going through everything point by point, but just highlighting for especially Punahele, being one of our new commissioners. And congratulations to you as well.

So I normally like to -- we take pride in the fact that we're training a department. I do (inaudible) in the newspaper and out on the ground here in the central plain we've had ongoing wildland training going on. That's not included in my report because the update was sent out to you folks before we started that, but we work with Mahi Pono, our corporate and county attorneys, as well their corporate attorneys to allow us a right of entry to do training on their

training cadres as well and our different discipline specific training that we do, and this is one -- well, these are two of them. And so we'll have those committee -- or, excuse me, training program cadre leads in front of you to explain their program a little bit more detail, so that's upcoming.

15

16

And then you see our mayor interaction. So typically my report, as you know, is broken down with interactions with our mayor and his staff and then our county counsel and then some of the miscellaneous interactions that we have with community members or in this case you'll see we have some other things listed there. But just to highlight real quickly, we do have a -- a directors meeting daily, it's a Blue Jeans meeting like this with the mayor, his staff. We've had these since the COVID crisis began. So we have those at 9:30 daily just to interact and make sure all of the departments are on the same page with the mayor's directives and whatnot. That's the important thing listed there.

The second thing that's very important, I think, for us as a commission as well as department, Chief Ventura and I also meet with the mayor on a monthly basis person to person. We just started those after the COVID crisis kind of tapered off a bit. So we had one last week and we brought to the mayor's attention our concern about Makena. So Makena State Park, as you know, we staff that with county lifeguards, that

1 funding was taken away, basically, at the end of the third 2 quarter last -- this past -- just a few weeks ago, actually, 3 and they advised us that they would not be renewing that 4 contract for now due to lack of funding at the state level. 5 So we had our conversation, our meeting with the mayor, we 6 expressed our concerns related to the amount of folks that are 7 still frequenting Makena State Park. Although we know it's a 8 state park, it has been staffed with county lifeguards up 9 until we had to suspend that due to lack of funding, so our 10 concern was that, you know, people are used to the lifeguards 11 being there and now that they're not there, if an accident or, 12 God forbid, fatality was to happen, people are gonna start 13 questioning why those folks aren't there and -- and that 14 protective layer of lifeguards isn't there. Now, certainly, 15 the argument is that it's the state's responsibility, but we 16 just wanted the mayor to know that, you know, the --17 basically, our concerns for the welfare of the general public. 18 Regardless of whose fault it is, people are going to be upset 19 when accidents or injuries happen. So we certainly understand 20 his stance and we're gonna support it. 21

The good news for our personnel is, is that we didn't have -- or lose any positions. The Councilmember Tamara Paltin, who some of you may know, was a former lifeguard, ocean safety officer in West Maui, so she has a -a passion for that particular agency with -- you know, within

18

us and so she put in positions, additional positions in the last fiscal year budget which turned out to be very beneficial for those folks that were assigned to Makena because we didn't lose any personnel. Nobody had -- nobody lost their job. We were able to transition them into the county positions and so nobody that was formerly assigned to Makena had to lose their job, so that was a very -- how can I say -- lucky thing, for lack of a better description, and so -- but then again now, if we -- once we do open up Makena, if the county decides to staff it again, we're going to have to go through a recruitment and hiring and training process to restaff Makena. So we'll keep you posted on what we hear, but we want to make sure you're aware, should you get asked, the state basically stopped the funding for those positions, so that's why there's no lifeguards there anymore at Makena.

Another thing you may see on page 2 of the document, our highlights, our county council interaction. What we had was we had -- the short version is we had a HIOSH, which is Hawaii Occupational Safety and Health office, we had an investigation related to a firefighter that got injured during some training off Kihei Boat Ramp. What happened is, is they had gotten their rescue watercraft back from the shop for some maintenance and repairs and our -- the way we do things in the fire department is, typically, we field test it. Even if the mechanics say it's okay, we fixed it, it's good to go; we want

to verify that because we don't want to find out something's wrong when an emergency happens, so we'll take it out and test drive it and do those types of things. If it's a fire truck, we'll run the pump and make sure it pumps water, those types of things.

So they had gotten the rescue watercraft back, they took it out for some testing and make sure it was seaworthy and whatnot, ocean worthy, and at the same time they had a brand-new firefighter that had been assigned there that when he was assigned from recruit school, the rescue watercraft was in the shop, so he never really had a chance to get familiarized with it. So they figured two birds with one stone, they took him out for some introductory training and at the same time ocean test the ski. Unfortunately, when they were doing some maneuvers, one of the firefighters got injured, he -- basically, they were doing a simulation of what -- what Chief Travis may remember in his day was like a man overboard drill or a bail-out type of maneuver and it really simulates, you know, a -- typically, our operation is a driver or operator of the rescue watercraft and then behind on the rescue sled is what we call a grabber, and so that's the person that will grab the person that's either struggling in the wave or -- or facedown in the water, will pull them on the board and start trying to revive them and those types of things.

June 18, 2020

19

So we do a maneuver which is called a man overboard 2 maneuver where the operator of the ski will bail off the ski and then the grabber has to go on, gain control of the ski, 4 and then go back and pick up that operator. So it's a common thing we do, but when the operator jumped off the ski, he landed wrong on the wave, just bad timing-wise, and he bruised and cracked a couple of his ribs. So as we went through the process, we found out that there was some things, reporting and timelines and whatnot, that we had to do better with OSHA. They had changed a few years back, a couple years back, we didn't know that, so when we -- when we went through the 12 internal investigation with OSHA, they found that there was some violations. So there was some fines that were levied and whenever we get fined as an agency, we have to go to council and, basically, get -- make sure they're aware of it and get their approval for covering the fines. So that was all done, it was approved, we had lessons learned from our side in process, but that's what you see listed there as far as the GET committee meeting. That was done virtually as well.

We did cancel our annual conference, our Hawaii Fire Chiefs Conference. Just due to, again, the COVID, coronavirus, a lot of national conferences are being cancelled. We petitioned the Ritz-Carlton, because there was some very heavy fines related to the contract. 'Cause I'm sure Commissioner Lundberg is aware, when we book these types

June 18, 2020

of big hotel rooms and blocks of hotel rooms and ballrooms and stuff, whenever you have to cancel that contract, there's some fines and -- and penalties that are, basically, given out. So we had to negotiate with the Ritz to remove those fines and just reschedule for 2021 and they agreed to that due to the extreme conditions that are happening with COVID. So that's been cancelled, we're working on some dates for the future.

And then, just briefly, we did an interview with Hana Hou magazine, the Hawaiian Airlines magazine, they're doing a profile piece on our department and our training program and whatnot. So it's always very humbling when -when folks want to do, you know, articles or newspaper articles, that sort of thing, on your department, but we did what we could to represent our department and you folks, as our commission, well and engage the reporter and answer her questions. And I guess we'll see whatever comes out in print if that was a success or not.

So that's all I have. If there's any questions, I'll, obviously, be here, but -- it's always hard that I can't see folks in person, but I'm here if you have any questions or need any further explanation. Thank you, Chair. VICE CHAIR GINOZA: Thank you, Chief.

DEPUTY CHIEF VENTURA: Good morning, everybody.

25 Thank you for being here. Nice to see everybody again. It's

June 18, 2020

been a while. It's been some unique times. Congratulations to our new chair and vice chair. And welcome aboard, Punahele, who's here, and we're still missing Max, but Richelle's working with Max as we speak to try and get him logged in.

I had sent in and you probably have my report over March, April, May, and June. I don't want to go over four pages of information, so I will additionally, just as Chief Thyne did, kind of skim. One of the things that I report out on are our department interviews and promotions. Fortunately, the mayor did not put any freezes on our department along with police, so we were able to continue both promotions and new hires during this COVID pandemic. We did have some unique interviews because we did some Blue Jeans interviews and so the same challenges we had with you folks in setting up this meeting, we had with all the candidates that we had to set up. Not only were we promoting captains and sworn personnel, but we were also hiring some civilian positions, so we had to work with them and we didn't even know them, we didn't know where they were, where they lived, if they had internet service, and that sort of thing.

So just in brief, the last four months, we have hired for the department a new -- and we use titled acronyms, but our SCBA technician, which is our breathing apparatus. We hired a person who's gonna start next month and they're going

to be responsible for all of the packs in all the fire trucks and all the bottles and the -- and all of the air-compressor systems that we use to refill all of the tanks at all of the various stations in our department. So that's going to be a great addition to our department. It's going to fall into our health and safety bureau, so they're going to be able to concentrate a little more on the health and safety side of our department and less on the logistics of just getting bottles and tanks repaired and tested. We also promoted 22 drivers, so that was a huge promotion class; we promoted seven captains; and we're about to interview our firefighter 2s, which would be our haz. mat. and rescue personnel, those interviews are next week. So we've had lots of movement, lots of activity going on. And that -- so that kind of summarizes the promotions and interviews.

We -- Tamara Paltin, a council member, when she also gave us the ocean safety officer positions to go onto the beach, she also gave us a clerical person, so that person has been put into play and hired. It was a transfer, so she originally worked for Herman in the emergency management agency, she came over to us into our prevention bureau and now she's our personnel assistant working in our HR department so we have a little bit more help in our HR group. So time sheets, you know, the software that we use, Workday, all these movements and promotions take a lot of personnel action in the

June 18, 2020

24

23

software that we use, so that's gonna help them be more efficient and get people what they need in a quicker time.

So moving on, department improvement committee, we have a -- we have an open recommendation forum for our firefighters and anybody to recommend something to the department like, Hey, I think you guys should do this, and then we look into it, we investigate, and we try to fulfill their wishes. So the -- that committee sometimes is busy, sometimes nothing happens. In the last four months, we've done a variety of things to increase quality of some personal protective equipment. We've also installed a new cascade air system at the Kahului Fire Station, so that one was a big improvement. Normally, they'd have to take the bottles from Kahului and training and either use our (inaudible) to refill bottles or they'd have to take the bottles to Wailea or Lahaina or Paia to refill. So logistics, you can just see how challenging it was. Now we have a Cascade system at Kahului, they can just go to train, come here, fill up their bottles, and be back to work, you know, with a full complement of (inaudible). VICE CHAIR GINOZA: Brad, Brad, real quick.

DEPUTY CHIEF VENTURA: Sure.

recognize Max, Max joined our meeting. Welcome, Max.

COMMISSIONER KINCAID: Thank you.

VICE CHAIR GINOZA: This is Kyle. I just wanted to

23

24

25

June 18, 2020

So kind of moving on in my report, along with

what -- improvements, we also have -- right now we have a crew

of people up in Wisconsin doing the final inspection on three

combing over these apparatus and kind of sending back little

they're doing when the chassis is kind of done and maybe the

cab is on the truck, and then we go on a final inspection and

we run the truck through tons and tons of testing, flip every

ram, run every pump discharge. And so they're in their final

inspection right now and if they -- unfortunately, but it's

common, they found a plethora of things that need to be

repaired. So they'll go back on the line, get repaired, and

two of them were wildland apparatus that were being built in

Texas while the three other apparatus were built in Wisconsin.

they're just an F550 chassis with a flatbed and a box -- some

boxes and a pump put on the back of it; just to kind of

Because of COVID, those wildland vehicles, being much simpler,

then hopefully get sent out here by the end of summer.

light switch, turn on every machine motor, run every hydraulic

of our apparatus: one ladder for Wailea, one engine for

Napili, and one engine for Kihei. They're -- they've been

reports. They -- this is the third trip. We go on a pretrip

to build the truck, we go on a midpoint trip to see how

to the commission. Thank you for being here, absolutely.

DEPUTY CHIEF VENTURA: Hello, Max, welcome. Welcome

28

add something to the policy so that we can, you know, be safer
 and be more protective of our firefighters. So, for example,
 the HIOSH incident on the jet ski, we had to review our SOG
 with our rescue watercraft, we made changes to both the

training program and the SOG, and then we consult with the

6 union to make sure everybody's happy with it. So those are7 the types of things that have gone on recently in union

the types of things that have gone on recently in unioninteractions.

Transmittals from the public is the last thing I report on. For us, almost a hundred percent of the last three months has been very positive from the community. They all know what a stressful time it's been for both the public and the first responders with this COVID pandemic, so they've been very grateful (inaudible) all of the activity, work, and response that we've provided. So almost all the letters that we've gotten from the community lately have been very positive and very supportive. Some of them have also been in regards to some activities with ocean safety, so although the beaches have been sort of empty, there's still people in the ocean and people still getting into trouble in near-shore areas. So one of the things was a shark attack incident back in March, there was another scuba diver at Kam III who needed help when they got washed up on some rocks, and then I just received from Commissioner Vares a letter that was sent through Richelle in regarding to another ocean safety incident that it appears

June 18, 2020

What was unique was we actually had five apparatus,

26

June 18, 2020

simplify things, we did a video inspection of those apparatus. So instead of going there, because we couldn't fly, and we knew we were getting into wildland season, we wanted to really get those two wildland vehicles on island, we agreed to doing a video inspection of the apparatus. And then, of course, when it gets here, if there's anything wrong, they'll have to warranty it, come and repair it and whatnot. Those trucks should have been moved from Texas to California already and are hopefully gonna get on a barge here soon and on its way out to Hawaii. So that's all sort of the things we've been working on in our department improvement committee.

Moving on to my next reported item is our union interactions. During COVID, especially the first two and a half to three weeks of March, we had to really consult with our unions like daily, because we were changing procedures, we were changing policies, we were issuing new and different protective equipment, we were moving firefighters out of dorms, putting them in classrooms, so that we could create social distancing. There was a lot, a lot of work going on and a lot of consulting with the union (inaudible) three weeks or so of the COVID pandemic.

So there's several little bullet points that you can see along there and then the normal stuff that we're always working on. We're always working to improve our SOGs, so we consult with them every time we change an SOG or we want to

that it was very positive and the response was topnotch, according to this person from the public. So all very good things.

You know, people will be critical during these times. We've talked to our firefighters and our ocean safety officers and explained to them how important public perception is. We're very fortunate that we are working, we are very fortunate that we are getting paid and we have jobs and we're essential during these times 'cause we have very well noted that many, many, many people are out of work and times are extremely hard for families, especially in the tourism industry. So the perception that we are allowing people to see us in the public needs to always be extremely on point during this pandemic, because we're still gonna receive, you know, a little bit of pushback. They don't necessarily know that our procedures have changed, so they might wonder why there's two firefighters standing at the fire truck when somebody's, you know, having a medical incident in a home, but the reason is we're not exposing all of our firefighters to a potential COVID incident, so we're separating our personnel so that we only expose two at a time. So those sorts of things, you know, people might be like, Wow, those guys are just standing at the truck, but what they're actually doing is creating social distancing and then they're also going to be our decon crew. So when the firefighters do come out of the

7 of 13 sheets Page 25 to 28 of 50

June 18, 2020 home and they're potentially contaminated, they were issued spray alcohol, Clorox; gloves, masks, booties, hoods to deacon our crews when they come out of a potential environment that was contaminated with COVID. So, you know, public perception is everything, what they see is what they believe, so we've been really enforcing with our firefighters that, Hey, we're working, we're getting paid, not everybody is, make sure that we're doing excellent customer service and that we're -- we're giving the right perception out there. So that kind of alluded to why we've received quite bit of positive support from the community over the last three or four months, because our -- our guys are doing very well. That concludes my report. Any questions in regards to those items? COMMISSIONER VARES: I've got one, Kyle. VICE CHAIR GINOZA: Lisa. COMMISSIONER VARES: I really appreciate you (inaudible). I want -- if you don't mind, it's short, I wanted to read it real fast. I know you guys are humble and don't brag on yourselves, but this really said a lot about all

June 18, 2020

me, it's going in and out, your sound, so maybe just speak up.

VICE CHAIR GINOZA: Yes. Can you -- can you -- for

COMMISSIONER VARES: Okay. If you don't mind, I'll

(inaudible) and they wanted put this out there that I thought

of you guys, actually. So just really quick, this is by our

24/7 website, it actually does a recording on all these

was beautifully written. Can? Really?

read this real fast.

VICE CHAIR GINOZA: Sure.

COMMISSIONER VARES: Okay. It says, After hearing and seeing countless play-by-play rescues happen over the years, we feel confident to say that we have some of the best trained fire and rescue crews in the state, if not the country. We wish you could all hear what we hear and see what we see. From their organization to their communication to their execution, these guys and gals are absolutely topnotch, in all caps. And we are so grateful to current and past MFD and ocean safety (inaudible) we can call on (inaudible) proud of. This also goes to the amazing (inaudible) fire fighting and search techniques (inaudible) with our fire and first responders. This was a very scary rescue and they pulled it off before it got unreal. Mahalo, mahalo, mahalo.

And I -- I think that summed it up really nicely because I think it's the coordination part that I like to see and recognize because there's a lot going on when you guys are trying to get out there and -- and actually effectively rescue somebody or fix an incident. So I wanted to make sure that everybody else heard that and that it would be in the public record, because that was a very nice summary of how well you all work together. So thank you.

June 18, 2020

VICE CHAIR GINOZA: Thank you, Lisa. I believe,Travis, did you have a comment as well?

COMMISSIONER TANCAYO: Yeah. Just a few questions
for the chief. As far as the new trucks, are the engines and
the ladders, are they still being built by Pierce? Did they
win the contract again or --

7 DEPUTY CHIEF VENTURA: This current bid that went
8 out, Pierce did win the thing, the bid, so that's why we're
9 back in Wisconsin, yeah.

COMMISSIONER TANCAYO: Okay. I just wanted to check about that. And those, the companies that are building the wildland truck, is that a subsidiary or a totally different company that's doing the wildland trucks?

DEPUTY CHIEF VENTURA: Yeah. So Councilmember Hokama asked us when we got this five-truck award in the council in the budget, to try to package them together and get one vendor so we could get truck discounts, try and get one vendor that could do the ladder, the two engines, and the two wildland trucks. So we were able to find three or four people -- businesses that were capable of doing that. Pierce did win the bid and the wildland trucks are being built by their subsidiary called Skeeter out of Texas. So had E1 or Rosenbauer or whoever won, won the bid, they would've gotten all five trucks. And so we were able to get a pretty substantial discount on the apparatus because we did a five-

June 18, 2020

truck purchase at once and Pierce did win that bid. That bid
 was about a year and a half ago and now we're finally gonna
 take possessions of the trucks this summer, that's how long
 the process takes.

COMMISSIONER TANCAYO: Okay. Thank you. I was -- I was hoping for something like that, you know, to get a better pricing. Those equipments are -- are expensive.

As far as the jet skis that we just received, are we still buying jet skis from the local retailers and then out-fitting them ourselves or have they come up with a -- a rescue-type ski that we're going with? I know in the past sometimes we would get some skis that were less friendly to getting on and off, you know, they were more stylish, so to speak, more sleek, and sometimes the older models were more user friendly. And I myself got hurt on the newer one rubbing my ribs in those conditions because you're used to doing something the same way and then the new models may have higher sides, so to speak. And I'm just wondering if a new package came out that we're going with or we're -- or are we still buying jet skis off the line and then outfitting, getting the boards together? That's my question. Thank you.

DEPUTY CHIEF VENTURA: Yeah. So, unfortunately, the rescue -- the watercraft industry hasn't come up with a plan to create a rescue watercraft. So we do take any existing watercraft and we modify it into a rescue watercraft by adding

2

33

1 the sled to the rear of the ski and some other, you know, 2 equipment to make it a rescue ski. We still have to follow 3 the manufacturer guidelines, so we're requiring everybody to 4 read the manual, make sure they understand the lanyard, the 5 personal protective equipment, and all that sort of stuff, and 6 then we work our rescue operations around the requirements of 7 the manufacturer as best as we can. But, yeah, skis have 8 changed a lot, some of the gunnels are eight inches high, some 9 are four inches high, so it makes it easier or more difficult 10 to get on and off the skis. We don't control the designs of 11 the skis, but we try to get what is safe for our firefighters 12 to operate, you know, in the conditions that they need to, 13 Chair.

COMMISSIONER TANCAYO: Okay. And finally, Chief, was the -- as far as getting manpower to Lanai and Molokai, I know it can be challenging, but do you guys have any trouble getting exemptions for the people to travel interisland as far as the rookies were concerned, you know, going back and forth to do their shift and so forth, or -- did the airlines and the state and the county work with you guys or was it -- was it a struggle?

DEPUTY CHIEF VENTURA: So, fortunately, it was -from what I could tell, what was reported back to me, it was
very easy and very accomplishable. We didn't have any
manpower issues because people could not get on a plane or

June 18, 2020

34

1 could not get to Lanai. Probably one of the biggest 2 challenges we had was Lanai, they work three days in a row and 3 then they have six days off, they rely on the Lanai 4 Expeditions Ferry to go to and from work. The ferry went from 5 running seven days a week, four trips a day to three days a 6 week. So they took it upon themself and we consulted with the 7 union, to create a whole new schedule on Lanai for one month. 8 So they were working a very unique schedule, I won't even 9 explain it to you, it's hard to follow, but it matched the 10 ferry schedule which was running Monday, Wednesday, Friday, so 11 that they always had transportation to and from work. And 12 then we worked with the union because some of -- sometimes 13 they were working four days straight, we worked with the union 14 and they would waive the double time and that sort of thing 15 because of the pandemic. So we had to adjust scheduling, but 16 they were able to get all travel taken care of and all 17 exemptions taken care of. 18

COMMISSIONER TANCAYO: Thank you. I only can imagine how challenging it would have been. Thank you for you guys' efforts and what you guys have accomplished in keeping our county safe. Thank you.

VICE CHAIR GINOZA: Thank you, Travis.

Does any other commissioner have any questions?

COMMISSIONER LUNDBERG: Yeah, this is Gregg. Chief,

what are the expectations for 4th of July this year? Have they -- have they cancelled Front Street and are you worried about pop-up parties all over? I know Paia is famous for having some pop-up parties for 4th of July. What is your plan of -- plan of attack for handling that holiday?

CHIEF THYNE: Well, Commission Lundberg, obviously, we're concerned with the dry fields out there and we always are on July. You know, usually in -- in Hawaii, anyway, we have a drying period towards the middle of June, towards, you know, the rest till the end of August and we are concerned. We do call back resources. We've already sent out -- Chief Lindo may go into that, we've already sent out gang pages to all of our personnel and all staff, relief vehicles accordingly, and then position them around the various districts. Unfortunately, there's not so much we can do as far as ordinances and laws and -- and all of those types of things, but we also message through our Facebook, our county -- or, excuse me, our department Facebook page there, you know, precautions and recommendations. But, obviously, we're concerned and we'll be staffing as appropriate and preparing as best we can.

COMMISSIONER LUNDBERG: Chief, have you heard, has Lahaina been cancelled for 4th of July events?

CHIEF THYNE: I can't say that I've heard. I

haven't seen anything messaged. I, you know, read the

June 18, 2020

36

35

1 newspaper fairly frequently, but I don't know that it has. I 2 haven't heard either way, to be honest with you. But like I 3 said, the pop-up ones and the -- some of you may have seen the 4 recent house fire in Lahaina and you may have seen some of the 5 video with the fireworks going off and there were also some --6 what wasn't seen, but was in the fire report was there were 7 some ammunition rounds that were located in the house as well. 8 So, you know, there's always gonna be people that are walking 9 on the line of -- of lawful and unlawful. I'm sure Max

police department. So, anyway, yeah. So - COMMISSIONER LUNDBERG: Thank you, Chief.
 CHIEF THYNE: -- I haven't either way.

14 VICE CHAIR GINOZA: Thank you. Any other questions15 from commissioners?

remembers those days from his previous employment with the

Okay. Before I move on to Chief Werner, I probably should clarify when I said Max joined the meeting, it's our new commissioner, Max Kincaid, Jr. So welcome.

Chief Werner.

COMMISSIONER LUNDBERG: Welcome, Max.

ASSISTANT CHIEF WERNER: Aloha. I'd also like to say congratulations to the chair and vice chair. Thanks for everything that you guys do. And welcome to Max, nice to meet you folks.

Part of my bureau updates, the highlights for the

fire prevention bureau is the mayor made it known that he really wanted to continue permits to be issued to keep the construction industry going, so in keeping with COVID-19 precautions, they started taking them just by appointment only and tried to do most of it through telephone conversations and or Zoom meetings, that type of thing. We are moving towards reopening that office, but we are also taking precautions, making sure that social distancing is kept, people are wearing masks. We've given a supply of masks to the front office person so if somebody comes in and doesn't have one, we can issue it to them.

The other thing is we have five new inspectors that just started. Captain Haake put together a training program for them and is trying to get them through that as quickly as possible. You know, there's a lot that goes into doing inspections, but the reports that I've gotten back so far is it's a really good group of people and they're learning quickly and they're already going out and doing inspections with the guidance of the only other experienced inspector who's in there.

As far as the health and safety bureau, during the COVID-19, what they did is they followed all of the recommendations from the department of health and the CDC as far as protective measures and PPEs. And what happened really quickly, but they were ahead of the game was PPE started

June 18, 2020

drying up and it was really hard to get, so they were tasked

we were also trying to figure out what our burn rate was

4 because this is a new situation for us. So now that things

5 have died down and we've had a chance to analyze what our burn

with staying on it and getting as much PPE as they could, but

6 rate was for our PPE and the number of cases that we had,

7 looking towards, you know, ramping up again. And so,

8 actually, we're doing pretty well as far as being prepared for

9 that to ramp up as far as that goes. They also work with our

10 haz. mat. company and put together guidelines as far as

11 decontaminating stations if somebody turned up positive and,

12 also, what types of chemicals to use on personnel, on

13 equipment, those types of things, and they continue to update

14 those and put out guidelines. And so they did a really,

15 really good job.

> As far as the budget, planning, and appropriations section of my report, our grants team, which is made up of onduty firefighters, have been applying for several grants and we did get a FEMA COVID-19 grant award. We had a meeting on the 9th with FEMA and it looks like a really good grant in the beginning, but after the meeting, I don't believe it's gonna amount to much. What they are going to reimburse is for overtime, which there wasn't very much overtime related to COVID-19 for us. And then as far as reimbursing us for PPE, they're going to reimburse us once all other types of funding

have been exhausted, such as the CARES Act and things that we received from the national stockpile, all of that has to come out first. So it's not going to amount to as much as we had hoped as far as reimbursement, but we still will fill out all of the applications and paperwork and see what we're able to get. And then our Hawaii Professional Firefighters Foundation grant, Chief Kawasaki has been working diligently to purchase all of the items and he's just about completed with all of

That's pretty much everything I have for you. If you have any questions, I'll be happy to answer.

12 VICE CHAIR GINOZA: Any commissioners have -- oh, 13 Lisa.

COMMISSIONER VARES: Got one, yeah. Hi. A question regarding the fire prevention bureau. I know Steve Haake had a pretty small staff to begin with, I think there were only two or three inspectors. Is that accurate? How many -- I know you just added five, is that a total of seven?

ASSISTANT CHIEF WERNER: We have a total of six inspector positions. We had put in for three more inspector positions, unfortunately, the budget, they got cut in this next budget. So he does have six inspectors and, as you know, those are a firefighter 3 position, so they often put in -after they've been promoted and gone in there for a period of time, put out and go out on to the line. So there was only

June 18, 2020

40

39

1 one left that was experienced, so we had five new firefighter 2 3s promoting into those inspector positions and has been, you

3 know, working diligently to train on those. We did get a -- a

4 lieutenant's position who did survive the budget cuts and that

5 person is going to be focusing on fire investigations,

6 determining causes, that type of. Does that answer your

question?

other tasks?

COMMISSIONER VARES: That's it and more. Thank you.

9 VICE CHAIR GINOZA: Chief, this is Kyle. So does 10 that mean that with the new inspector positions, they 11 primarily concentrate on plans review, so plans will be -- for 12 building permits and such will be reviewed faster, or it's for

ASSISTANT CHIEF WERNER: So, no, they don't do plans reviews. So there currently are two lieutenant positions and now we're going to have a third one and they do the plans review. Now, there are personnel that current -- were in that position who have gone on line and what we did, and Captain Haake initiated this, was calling back those people on their days off, those previous plans reviewers, so that we could process more plans. But, no, we're -- currently there's only two and there will be a third person.

VICE CHAIR GINOZA: Okay. Great.

24 Any other -- oh, Travis.

COMMISSIONER TANCAYO: Chief, I think you guys can

June 18, 2020 June 18, 2020 41 43 1 1 hear me. Okay. Hey, Chief, as far as, you know, filling the VICE CHAIR GINOZA: I think next is Chief Hanalei 2 2 spots, I know it's always been a transition, you know, guys Lindo. 3 3 come in for the -- for the promotion and then they quickly --(Inaudible comments.) 4 you know, when they can, they try to transfer out, and 4 CHIEF THYNE: Hey, Chair, just quickly, he -- when 5 5 understandably. Are you -- is it possible to -- for like a he introduced himself, he said his current rank, which is 6 commitment for so many years, I thought they had that years 6 battalion chief, but he's actually working for the -- for the 7 7 ago, or is it wrong to do something like that? It seems like, next couple of weeks covering for Chief Kawasaki as our TA 8 8 you know, it's just hard to fill that transition spot. assistant chief. 9 9 ASSISTANT CHIEF WERNER: So you're absolutely VICE CHAIR GINOZA: Oh, okay, okay. 10 10 correct, what happens is people will get promoted into those CHIEF THYNE: So he's (inaudible). 11 11 VICE CHAIR GINOZA: Okay. Okay. Thank you. positions and as soon as they can, they'll put in a transfer 12 12 to go back on to the line. And I -- in the past, I believe ASSISTANT CHIEF LINDO: So good morning. 13 13 that they did require a commitment. I think -- and Chief Congratulations, Chair Ginoza and Vice Chair Vares. 14 14 might be -- have more history on this, I don't think they (Interruption in proceedings.) 15 15 actually can do that, so -- but that's a good question. So ASSISTANT CHIEF LINDO: Welcome to all of the 16 16 commissioners, actually. This is my first time here, so I'll it's been -- there's been a lot of discussion about how to 17 solve that issue and we're currently working on a plan that 17 give a little introduction and then I'll cover Chief 18 18 Kawasaki's -might solve that problem, which would be creating a fire 19 inspector 1 position which could be filled by a firefighter 1 19 (Interruption in proceedings.) 20 20 with a number of years, possibly four years. Because you're ASSISTANT CHIEF LINDO: -- operational summary and 21 21 not able to even apply for the firefighter 3 exam until you then I'll talk a little bit (inaudible). So my name is --22 22 have six years under your belt. So a firefighter 1 who has and, really, I'm a battalion chief, right now I am temporarily 23 23 assigned in the Fire 3 role. They call me Hanalei Lindo four years under his belt could go into that fire -- that 24 24 inspector position, an inspector 1 position, and he would be because my dad was a retired deputy fire chief and he's Henry, 25 making the same pay as a firefighter 3. Now, you would not be 25 so they call me Hanalei. June 18, 2020 June 18, 2020 44 1 able to slide right over on to the line. If a firefighter 3 1 You guys have the chief of operations report in 2 2 was promoted into that position, he would be a fire inspector front of you, so I'll keep it real brief. A lot was already 3 3 2 and he would be able to go back and forth via -- so we're covered by Fire 1 and Fire 2. So you know with the COVID, 4 hoping that this would attract some people to be more 4 when I began as a battalion chief in early March and once 5 5 committed, because, as you know, it takes a lot of time and COVID-19 started, the amount of calls just plummeted, which 6 training to be up to the point where you can actually perform was good, it gave me time to relearn the job. As things start 7 inspections and do the duties of that position. So this would reopening and we're looking at new -- look at the amount of 8 hopefully -- hopefully, take care of that --8 call volume has definitely increased. The amount of structure 9 COMMISSIONER KINCAID: Okay. Well, let me check 9 fires and brush fires have also increased. On the structure 10 10 with you. I'll get back with you on this number. All right, fire in Wailea back on May 1st, we did have an injury to a 11 11 man. Take it easy. firefighter, injuring their hand. As we're moving forward and 12 12 VICE CHAIR GINOZA: Thank you, Chief. things are starting to reopen, we've seen more vehicle 13 13 CHIEF THYNE: Yeah. Just a quick comment, Chief accidents, more rescues, a lot more incidents, so just be 14 14 Travis, it is -aware of that. 15 15 (Interruption in proceedings.) Standard operating guidelines, Chief talked a little 16 16 CHIEF THYNE: We cannot do that as far as with bit about that, so once we see things that are working, things 17 17 commitments, so that was a violation (inaudible) rules. that are not working, you know, we've got to take a look into 18 18 COMMISSIONER TANCAYO: Thank you. I know it's the standard operating guidelines as -- as well as the rules 19 19 always a struggle and then we were fortunate enough to have, and regs and make adjustments to that, so that is being 20 20 you know, personnel that stayed a bunch of their career in handled through cadres, through the fire administration, and 21 21 there. You know, I was always thankful, because it is a also through the battalion chiefs, yeah. Operationally, we 22 22 challenging and difficult position, but much needed. all talk story and we all took different portions of the 23 23 VICE CHAIR GINOZA: Okay. Any other questions from standard operating guidelines and checked to see to make sure 24 24 commissioners? that it's something that we're doing; and if we're not doing, 25 25 then let's make adjustments to it. So that's currently being (No response.)

1 done right now. 2 He went over the apparatus and equipment, Fire 2. 3 In the training bureau, Recruit Class 35 did get 4 through their skills evaluation back in May and what the --5 this does is as a recruit, when you become a recruit, you do 6 your initial training, as you're come up on your -- your year, 7 there's another evaluation as you're nearing the end of your 8 probation. So this skill test allows the members of training 9 to see if everything that they learned in the beginning, 10 they're still able to do. And if they're able to meet it, 11 they will go ahead and give them the stamp of approval and 12 they get to go through their probation and become current 13 firefighter 1s. Also, there was a new recruit class 14 orientation on May 26 because of the new recruit class that's 15 gonna start on July 1st with 20 recruits. So the Wailuku 16 Armory has been secured because due to this COVID-19, we have 17 to separate the amount of personnel.

And then a little bit of ocean safety was also discussed by chief. Again, looking at the different protocols, looking at the different things that's happening in the reopening, and making adjustments to that.

So that's pretty much it for the operations report. Do you guys have any questions? Again, I'm just a substitute teacher right now, you know, so being on the (inaudible) do my best or pass it over to them to answer, but any questions?

June 18, 2020

VICE CHAIR GINOZA: Commissioners, any questions?

ASSISTANT CHIEF LINDO: Okay. Well, seeing none --

(No response.)

46

VICE CHAIR GINOZA: Thank you. ASSISTANT CHIEF LINDO: -- let me go and just tell a little bit about myself, if that's all right, Chair Ginoza. VICE CHAIR GINOZA: Absolutely. ASSISTANT CHIEF LINDO: Okay. Yeah. So for those of you guys who don't know me -- and I know some of you -- my name is Hanalei Lindo. I've been a firefighter for a little over 25 years. I started on -- at Paia Station back in 1994 and, surprisingly, Chief Thyne was my recruit training officer when I first got in, so our relationship stems that long. I also was able to work out of Kahului Station. So I spent about 14 years of my career here on the island of Maui, not only at Paia, at Kahului, but I spent about four years in the fire prevention bureau as an inspector. Back in 2008 I moved back to Molokai, still as a fire inspector, and that's where I actually saw my -- my career heading to and I wanted to stay in that route. But thank goodness that we have leaders who saw potential and that saw potential in me, said, you know, what (inaudible).

So back in 2009 I became a captain over on Molokai and that's where I spent the past -- from 2009 all the way through this year, 2020. I've been a part of different cadres

and committees within the department, such as the incident management team, being a part of the fire task force out there on Molokai with Chief Tancayo. Chief Tancayo was instrumental in talking me into being a part of that, which allowed me to grow in not only relationships, but really understanding the importance of relationships, yeah, between the fire department and every other agency that we deal with.

Back in March of this year, I took a position as a battalion chief and it's been awesome. The learning curve has been steep, you know, but, amazingly, COVID-19 gave me an opportunity and chance to learn as much as I could because the amount of call volume. So for right now, where I see myself moving forward, you know, I didn't take this job just to come in and play around and, Whoo-hoo, I'm a battalion chief, you know. I believe all these years had -- years of service and everything that I've been involved with led me to where we are now. So I believe what I bring to the table as a battalion chief is to continue to bridge the gaps -- not to say that there's any gaps between fire administration and operations, yeah. So the BCs, we're kind of middle management, you know, to be -- we take care of operation of things that -- that are happening on line and we're able to distribute information and things that work or didn't work and give that in little advisements up to administration. I also believe -- one of my things is to continue to

June 18, 2020

47

1 support the mission and the goals of the fire administration, 2 yeah. Also, to move forward in the missions and goals of the 3 strategic plan that was laid out. I just believe I'm an asset 4 to this department because I enjoy positive, I enjoy 5 empowering people, I enjoy leadering and mentoring knowing 6 that anybody can (inaudible) me. So my job is to make sure to find the -- the future leaders and -- and mentor them and 8 empower them and instill in them good foundational values 9 because that's the upcoming leaders and that's the kind of 10 stuff that's gotta be passed along. So I'm kind of right in the middle of that, yeah, a little bit of old, a little of the 12 new, and bridging all of that and putting it together. 13 So thank you, guys, I hope to see you guys face to

face and -- and work with you guys closely over the next coming years. So thank you, Chair and Commission Members. Thanks

VICE CHAIR GINOZA: Thank you very much and congratulations on your promotion.

COMMISSIONER STERLING: Thank you, Chief. ASSISTANT CHIEF LINDO: Thank you. VICE CHAIR GINOZA: Does any commissioner have any comments or anything they want to say about --

(Interruption in proceedings.) VICE CHAIR GINOZA: That's the last item on our

25 agenda.
